PROSPECTUS 2025-26

Srinivasavanam, Kuppam - 517 426, Chittoor Dist., Andhra Pradesh

Vice-Chancellor's Message

Dravidian University is a visionary institution conceived by the late Sri Nandamuri Taraka Rama Rao Gaaru-former Chief Minister of Andhra Pradesh, legendary actor, humanist, and far-sighted leader. Established in 1997, the University was founded with the noble aim of promoting and advancing Dravidian languages and culture. His exceptional vision led to the creation of the University in Kuppam, strategically located at the Geographical, Cultural and Lingual confluence of Andhra Pradesh, Karnataka, and Tamil Nadu, while also engaging the neighboring states of Kerala and Puducherry in this noble mission.

The University has since become a beacon of higher learning, committed to the preservation and advancement of knowledge in areas such as Dravidian languages, English, folklore, tribal studies, history, archaeology, linguistics, literature, and philosophy through rigorous teaching and research. With the continued support of successive Chief Ministers of Andhra Pradesh, the institution has seen steady growth in infrastructure and human resources, enabling it to meet its academic and social objectives.

In addition to its core focus, the University has expanded its academic horizon by offering programmes in education, science, technology, computer science, commerce, and management—thereby addressing the diverse educational needs of students in this underserved region.

The University was accredited with a 'B' grade by NAAC in 2025. Notably, the support of Tirumala Tirupati Devasthanams (TTD) has played a vital role in maintaining a clean and green campus environment.

I am deeply grateful to my esteemed predecessors whose contributions have laid a strong foundation for the University's growth and reputation. It is now my solemn responsibility to build on that legacy-identifying new and unexplored academic frontiers through innovative teaching, path-breaking research, skill development, and community outreach. My vision is to propel Dravidian University to greater heights of national and global recognition.

I sincerely seek the continued cooperation and unwavering support of all stakeholders-students, parents, faculty, administrative staff, and the broader public-as we work together to fulfill this shared vision of academic excellence and societal transformation.

National Education Policy (NEP) and University Syllabi

The **National Education Policy (NEP) 2020**, introduced by the Government of India, represents a transformative vision for the education system, with significant implications for higher education and university syllabi. Aimed at fostering holistic, flexible, and multidisciplinary learning, NEP seeks to align the Indian education system with the needs of the 21st century.

Adaptations in University Syllabi:

- 1. Multidisciplinary and Holistic Education:** University curricula are being restructured to allow students to explore diverse fields across sciences, arts, humanities, and vocational subjects, encouraging a well-rounded education.
- 2. Choice-Based Credit System (CBCS):** The implementation of CBCS under NEP enables students to choose subjects across disciplines and accumulate credits flexibly, promoting academic mobility.
- 3. Skill Development and Employability:** Emphasis is placed on incorporating skill-based and vocational courses to improve employability. Syllabi now often include internships, apprenticeships, and project-based learning.
- 4. Integration of Indian Knowledge Systems (IKS):** NEP encourages the inclusion of indigenous knowledge, traditions, and languages in the curriculum to promote cultural awareness and national identity.
- 5. Technology Integration:** Digital literacy, blended learning, and the use of online platforms are now embedded in teaching and learning processes, especially post-COVID.
- 6. Research and Innovation Focus:** The policy promotes undergraduate research, innovation, and critical thinking through flexible syllabi and research-driven pedagogy.
- 7. Assessment Reforms:** Assessment is being reoriented to focus more on conceptual understanding and application rather than rote memorization. Continuous and formative assessments are being encouraged.
- 8. Multiple Entry and Exit Options:** Degree programs now allow for flexible exits after one, two, or three years with corresponding certifications (certificate, diploma, or bachelor's degree).

The NEP's influence on university syllabi marks a shift from rigid, exam-oriented learning to a more inclusive, learner-centered model. By fostering creativity, flexibility, and interdisciplinary knowledge, the NEP aims to make higher education more relevant, inclusive, and future-ready.
